

Application Guide									
Rev 1.29.10									
AHS356 and AHG37 Monitors are only used with the HRC Headrest Frame.									
Please consult with your inside Sales Representative when ordering headrest monitors other than the Model Numbers AHM7 and AGG7									
WARNING!!! The Application Guide is to be used as a guide to determine your specific application and color. Colors must be matched to a sample swatch to ensure an exact match. Orders are taken only with Myron and Davis color codes, interior color scheme names and other identifying forms are not acceptable. If an order is placed by a customer without a Myron and Davis color code, we will not be held liable for any charges to obtain the correct color. A restocking charge will apply to orders made with the incorrect color.									
Fabrics and leathers will change color over time due to environmental conditions, wear, and treatments. The application guide reflects the correct color when the vehicle is new before any treatments, wear or fading. Typically wear, environmental conditions will lighten the colors and patterns. Treatments, protectants, and other chemicals will usually darken colors and patterns.									
Vehicle Make Model	Model Year	Seat Position	OEM Color	OEM Piping Color/Style	Myron & Davis Color	M&D Piping Color/Style	Grain/Color Code	AHDM7 / AGG7 HRD Headrest Frame	Headrest Material
