The Ultimate Installed GPS Security, Recovery & Location Awareness System For Your Vehicle From ESCORT

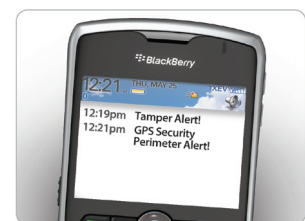

Protect your vehicle as never before with the most-effective permanently installed GPS security alerting and tracking system available. And it's from ESCORT, the award-winning leading authority in radar and laser detection for more than 30 years. Powerfully combining always-on cellular networks, top-tier GPS tracking and motion-sensing technology that activates from your own keychain, plus the exclusive, instantly-triggered GPS Monitoring & Recovery Service to speed the return of your stolen vehicle, the ESCORT Entourage CIS is your extra layer of assurance for the things you value most.

See the status of your Entourage CIS device online in addition to tracking and other online features

Real-time GPS tracking tells you where your vehicle is located at anytime

Instant awareness of your vehicle or belonging's security through mobile alerting (SMS and email)

"When my kid takes the car, I can know if he's speeding or taking the car someplace he shouldn't be going. And getting it installed was a breeze."
— *Katie Powell*

"I run a small landscaping business. With the CIS in each of my trucks, I can find out where my guys are when I need them—and they can stay in touch with each other, too."
— *Jeffrey Weaver*

Maximum Security and Convenience

ESCORT Entourage CIS arms and disarms automatically with your MyPass™ key fob, and it lets you know by text message and e-mail when your vehicle is tampered with or moved by an unauthorized individual.

Maximum Location Awareness & GPS Tracking

Advanced sharing technology lets you go beyond mere tracking, allowing you to share your vehicle's location with people you know, via your personalized website panel. Plus, you can track your vehicle's precise location, speed and direction on your computer, BlackBerry® smartphone, or browser-enabled mobile phone—all in real-time and on demand.

Maximum Personalization

Your private website allows you to set all your security preferences—and change them at any time. Select your security parameters, choose icons for your multiple devices, check your vehicle's speed and direction on Google™ maps, and even see where your vehicle has been in the previous six months.

Maximum Monitoring and Recovery 24/7

Entourage CIS is the first vehicle security device sold at retail featuring the optional GPS Recovery & Monitoring Service. Now, you'll be notified both by text message and a phone call from a real person, when your vehicle is compromised, and every effort will be made to recover it as quickly as possible—and with the minimum amount of damage. With over 1,000,000 vehicles stolen every year in North America, you don't have to be another statistic.

Maximum Ease-of-installation

The intelligent design of ESCORT Entourage CIS makes it easy to install by any professional automotive service specialist. Ask your dealer, local audio and security system installer or leading automotive service chain for further details.

Maximum Peace-of-mind

Unparalleled features, unmatched performance and unequalled attention to the ownership experience make the ESCORT Entourage CIS the smartest choice in security, location awareness, recovery and monitoring for your vehicle.

GPS Monitoring and Recovery Service

When activating your new ESCORT Entourage CIS, consider subscribing to the GPS Monitoring & Recovery Service. It's your guarantee of maximum convenience, efficiency and peace-of-mind.

Instant theft detection

Unlike other services, GPS Monitoring & Recovery Service is triggered instantly. If your vehicle is ever stolen, ESCORT Entourage CIS notifies you directly by email and text message (SMS). Simultaneously, the recovery center is contacted, and you will receive a call from a live person to verify your vehicle's status so the recovery process can begin immediately.

Your MyPass makes it happen

The MyPass key fob included with your ESCORT Entourage CIS system conveniently automates its security features. Every time you leave your vehicle, the MyPass automatically and wirelessly arms your ESCORT Entourage CIS, and disarms it when you return. If your vehicle leaves its GPS security perimeter without your MyPass present, you are instantly notified through mobile alerting via email and text message. If you subscribe to the GPS Monitoring & Recovery Service, the recovery process is triggered instantly.

Confidence counts

When your vehicle goes missing, every minute matters. With GPS Monitoring & Recovery Service, you can be assured of the highest levels of quality and experience. And with many insurance carriers offering discounts to customers with permanently-installed theft systems, subscribing to the recovery service is the best way to safeguard your investment.

Annual GPS Monitoring and Recovery Service starts at \$119.95

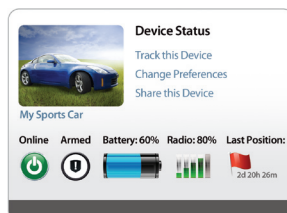

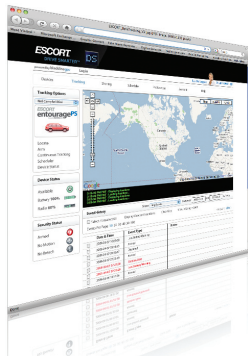

Annual subscription plan required (*see back panel*)

The Truly Portable GPS Security & Location Awareness System For Your Vehicle Or Personal Belongings

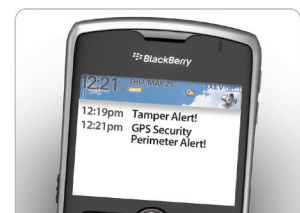

Introducing ESCORT® Entourage™ PS, powered by Blackline GPS, the fully portable, personalized security system with mobile phone alerting. And it's from ESCORT, the award-winning leading authority in radar and laser detection for more than 30 years. Unlike siren-based vehicle security, ESCORT Entourage PS features a powerful combination of always-on cellular communication, industry-leading GPS tracking and tamper-sensing technology to silently notify you directly of any threat to your vehicle's safety. All of which makes noise-polluting siren-based security systems a thing of the past.

See the status of your Entourage PS device online in addition to tracking and other online features

Real-time GPS tracking tells you where your Entourage PS device is located at anytime

Instant awareness of your vehicle or belonging's security through mobile alerting (SMS and email)

"With Entourage PS, I know when my 16 year-old takes the car, that he's respecting my limits—and the proof is right there on the Network Account page. I'm a fan."
— *John Miles*

"The text alerts are great. I like the idea of knowing right away if someone has been messing with my car."
— *Gary Morris*

Real Portability

ESCORT Entourage PS goes where your vehicle or other possessions go. The compact, sleek design and UltimateSense™ GPS antenna technology make it easy to hide the ESCORT Entourage PS in your vehicle or other personal possessions while delivering optimum tracking performance. And its internal battery lasts up to one full week on a single charge.

Real Security

When armed, Entourage PS automatically sets a geographical 'security zone' for your vehicle or personal items and turns on its tamper-sensing technology. Should your vehicle or other belongings be compromised or moved outside of its security perimeter, Entourage PS will notify you by both email and text message (SMS). It's like having a dedicated personal assistant looking out for the things that matter to you the most.

Real Personalization

Your private Network Account allows you to set all your security preferences — and change them at any time. Remotely arm or disarm your security feature of your ESCORT Entourage PS, choose icons and names for your different devices, remotely locate your various GPS devices, check your vehicle's speed and direction on Google™ maps and more.

Real Location and Security Sharing

Advanced sharing technology goes beyond mere tracking, and lets you share your vehicle or other item's location with people you know via your private Network Account powered by Blackline GPS. You can even create a FREE Network Account for your friends, family or associates to access any or all of the features of your ESCORT Entourage PS. You are in control of all permissions, all of the time and on demand.

Real Location Awareness & GPS Tracking

Know where ESCORT Entourage PS is located any time, from your online Network Account. Locate your device in as little as 20 seconds, automate tracking with a location schedule, or use continuous tracking to automatically update ESCORT Entourage PS location as quickly as every 10 seconds. Plus, you can track the precise location of the your device on your BlackBerry® smartphone or browser-enabled mobile phone—all in real-time.

Real Easy

With its wide range of features, dependable performance and superior quality of user experience, the ESCORT Entourage PS is the smartest choice in truly portable security and location awareness for your life on-the-go.

When you know is as important as what you know.

With ESCORT Entourage PS, location awareness means staying connected to the things that matter most. Put one in your car, your luggage, or in your child's backpack. You can even share the location of your ESCORT Entourage PS with people you know.

For the sports enthusiast:

Stay on top of your stuff like your bike, your board or your golf clubs. Share your location with other members of your bike club or hiking party.

For the traveler:

Look after your belongings in your hotel room or track your luggage—for those times it jets off without you. Create a history of your where you've been and when you've been there.

For the parent:

Become aware of your teenage driver's location, driving habits and overall safety. Keep tabs on anyone who might borrow your vehicle, like a nanny, relative or friend and keep track of your child and their school backpack—all-in-one.

For the family:

Be able to quickly locate your spouse or partner in case of an emergency. Make sure your loved ones have safely arrived at their destination.

For the concerned:

Learn immediately if your vehicle has been tampered with by an unknown individual when you're at work. Relax knowing that the internal battery lasts up to one full week on a single charge.

For the small business:

Make sure your vehicles are where they're supposed to be—and when they're supposed to be there. Let your team collaborate with each other by communicating with one another.
