- Durable & Dependable LED performance
- No Glass - No Transformers - No Noise
- Low power consumption
- Available in 5 colors:
Blue, Green, Red, Yellow, and White

If you want a quality feature packed LED undercar kit, get it straight from the source that innovated it. Our undercar kits have a completely re-designed approach to the world of undercar lighting products. No more fat round tubes hanging from underneath your car and no more breaking tubes every time you go up a driveway or over a speed bump!

All our undercar kits feature ultra low-profile rectangular tube design and wide viewing angle LEDs that emit a flood of light with very little power and no noise. This ultra low-profile design boasts the most compact design on the market today, and provides the cleanest possible installation.

There are many imitations,
but we will still innovate...

That's our passion.

LED UNDERCAR LIGHTING

RC100

- Optional wireless infra red remote control can be used with Varad suspension lighting & previous under car kits

2X BRIGHTER!
than previous models

ILK SERIES

- Small design for those hard to light spaces
- 4 LEDs per pack
- Available in 5 colors

With VARAD's line of Interior accent lighting systems, LED light bars and ILK LEDs you can ignite even the most boring interiors. Drench your interior with intense LED colors rated for 50,000 to 100,000 hours of life. Perfect for highlighting stereo components, footwells, pedals, and subwoofer enclosures. Color matched end-caps with the HLW series provide 360 degree adjustability with wide view angle LEDs to direct your light where you need it most. Individual ILK LEDs are perfect for lighting those small locations like the heater vents or door handles.

For the most sophisticated interior lighting effects VARAD offers it's Digital Series HLWX, color-changing LED light bars. Cycle through 1000 different colors. Featuring color changing, strobe and auxiliary lighting input to work with alarm systems or door trigger, and more. Network multiple light bars for the ultimate interior lighting effects.

Varad has a new line of Interior accent lighting systems, including, the IL2W, using two of our 1 watt LED emitters that blast light anywhere you need it. Or you can use the new ILS series kits featuring the color changing, stylish ORB light bars.

VISUAL THEFT DETERRENCE

You just bought a state-of-the-art alarm system that chirps, squeals, warbles, tracks, senses and pages. By the time any of this happens, your window is broken!
Consider the Art of Visual Theft Deterrence.

HIGH-VISIBILITY SCANNERS™ PREVENT BREAK-INS BEFORE THEY HAPPEN!
SCANNERS™ are the answer! You will have greater protection than a traditional dash-mounted LED.
SCANNERS™ are the perfect add-on for factory keyless remote entry systems, as well as vehicle recovery systems.

All SCANNERS™ models work with or without an alarm system.
